

Author:David B. Shumaker
Date Created: 06.06.2016
Platform: PYTHON 3.5.1
Project: DISQUS SCRAPER
Purpose: This tool allows the end-user to extract information from Disqus forums that the typical user is not exposed to: user reputation, flagged posts, moderated posts.... The Disqus API is used and implemented with standard libraries.SQLite3 is used for persistent storage.

PYTHON3 libraries; sys, Urllib, requests, json, time, re, os, getopt, datetime, sqlite3, itertools.

NOTE: This tool does not implement oauth2 for posting data in forums.
